The Student-Parent Portal

Nova Scotia uses a database called *Power School* to store information about students. One of the features of this software is that you too can log-in and view information about your child.

The Student-Parent Portal offers you access to your child's grades, attendance, teacher's comments and school bulletins through the internet using the Student-Parent Portal website.

The quick reference guide for Parents & Guardians is available to help get you started. You can also view a 5-minute online demonstration video of the Student-Parent Portal.

To access these materials, simply go to the "Students & Parents" section of the host website:

www.inschool.ednet.ns.ca/students_parents

After the school start up is completed, your access information will be given out during the first parent teacher meeting time.
